-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) Responsive to communication(s) filed on 17 December 2003.
- 2a) This action is FINAL.                            2b) This action is non-final.

## **DETAILED ACTION**

1. This is the first action on the merits. Claims 1-7 are pending.

### ***Drawings***

2. The drawings, as originally filed, are acceptable as formal.

### ***Claim Objections***

3. Claim 5 and 6 are objected to because of the following informalities: it appears "greater an opposite" should be – greater to and opposite--.

Claim 5, the 2<sup>nd</sup> reference to claim 1 must be deleted.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 9-10 "for producing a radial preload and an axial preload" conflicts with claim 3 where it is recited "said nut having only radial preload".

Claim 2, line 2, "or" is alternative. It is not clear if the device is motor or manually driven. The meets and bounds of the claim cannot be ascertained.

Claim 7 is indefinite since it recites "A plurality of linear stages as recited in claim 1". This is indefinite since claim 1 only recites a single linear stage. This claim could be re-worded to state –The linear stage of claim 1 where there is provided a plurality of said linear stages.... or the like.

6. Claims 4, 6, and 7 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must be in the alternative and cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-3, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Allen (3,817,111).

Allen shows a screw (180) and nut (160) device (figure 10) where the nut can be released from the screw (position of figure 10) which allows the nut to travel along the

screw for coarse positioning and then the nut is re-engaged to provide for fine positioning of the device.

### ***Conclusion***

9. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
